Section 1 of 2

Live Event Attendee Experience Survey

B *I* U  

[Time to fill: ~2 min] A survey to understand the real logistical challenges attendees face at large-scale concerts, sports matches, and corporate exhibitions.

Age

Short answer

Short answer text

Required

Occupation

- ☐ Student
- ☐ Corporate Professional
- ☐ Other

How often do you attend large-scale events (e.g., concerts, sports matches, or mega-conferences/exhibitions)? *

1

2

3

4

5

Rarely (0-1 times a year)

☐☐☐☐☐

Frequently (5-6 times a year)

When thinking about the overall event experience, which phase causes you the most stress or frustration? *

- ☐ Buying tickets
- ☐ Getting to the venue
- ☐ Entry and security checks
- ☐ Finding locations inside the venue
- ☐ Food and amenities
- ☐ Exiting and parking

Have you ever experienced a situation where a chaotic entry or a disorganized security queue ruined your mood before the event even started? *

- ☐ Yes, frequently
- ☐ Yes, once or twice
- ☐ No
- ☐ Not sure

Once inside a massive venue or convention center, how difficult is it usually to find specific locations (your seat, food stalls, washrooms, or exhibitor booths)? *

- | | | | | | | |
|-----------|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|---------------------|
| | 1 | 2 | 3 | 4 | 5 | |
| Very Easy | ☐ | ☐ | ☐ | ☐ | ☐ | Extremely Difficult |

Have you ever missed a portion of a concert or a corporate keynote speaker simply because you were lost, stuck in a venue bottleneck, or waiting in a disorganized food line? *

- ☐ Yes
- ☐ No

...

How many different apps or websites do you typically have to use for a single event? (e.g., one app for the ticket, a separate site for parking, another for venue maps) *

- ☐ 1 (Everything is unified)
- ☐ 2 to 3
- ☐ 4 or more

What is/are the app(s) that are asked for above? *

Short answer text

Think about the end of the last major event you attended. If the exit traffic and parking situation was chaotic, how much did it negatively impact your overall memory of the event? *

- | | | | | | | |
|--------------------------|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|----------------------------------|
| | 1 | 2 | 3 | 4 | 5 | |
| Did not bother me at all | ☐ | ☐ | ☐ | ☐ | ☐ | Completely ruined the experience |

Do you agree with the following statement: "A great concert or corporate event can be easily ruined by bad venue logistics, lack of basic amenities, and parking chaos." *

- ☐ Strongly Agree
- ☐ Agree
- ☐ Neutral
- ☐ Disagree
- ☐ Strongly Disagree

...

If a single "All-Access" digital pass existed that securely combined your event ticket, your parking pass, and provided a live indoor map to your seat, how likely are you to use it? *

	1	2	3	4	5	
Very Unlikely	☐	☐	☐	☐	☐	Highly Likely

Would you feel safer and more in control at a massive event if you received real-time app notifications about schedule changes, crowd bottlenecks, and emergency exits? *

- ☐ Definitely Yes
- ☐ Probably Yes
- ☐ Not Sure
- ☐ Probably No
- ☐ Definitely No

Have you ever organized an event? *

- ☐ Yes
- ☐ No

Section 2 of 2

For organizers

Description (optional)

How many different software platforms or vendors do you currently coordinate to manage a single large-scale event (e.g., separate tools for ticketing, check-in, crowd analytics, and parking)?

1-2

3-4

5+

Other:

During a live event, how do you primarily monitor crowd density, identify bottlenecks, and redirect attendees?

Manual staff observation and walkie-talkies

Standard CCTV without analytics

Real-time digital telemetry

Crowd analytics

Other:

How valuable would it be to offer your sponsors real-time spatial analytics (such as venue heatmaps and visitor behavior tracking) to prove exactly how much foot traffic their exhibition booths received?

Response Summary

- **Ticketing and Event Platforms:** Attendees predominantly utilize BookMyShow, followed by District, Ticketmaster, TickPick, SeatGeek, and Paytm, or access event information through official websites.
- **Navigation and Transportation:** Google Maps is frequently cited for wayfinding, while Uber is used for event-related transit.
- **Services and Amenities:** Attendees reported using food and beverage apps like Zomato, Swiggy, and Park+/Parkbuzz for dining and parking requirements.
- **Communication and Utilities:** Use of general platforms like WhatsApp and specialized company portals was also noted.
